Diploma	GTU(IT)	GEC surat	2020-23	9.27
SSC	GSEB	Briliant vidhalaya	2020	84

PROJECTS

- **Bus Tracking Application**(view) *(Aug'22-Feb'23)*
  - The Bus Tracking App is a comprehensive solution designed for parents, drivers, and administrators. Parents can manage profiles, set pickup locations, and track the live bus location. Drivers update profiles and toggle live location. Admins add and manage users. The app utilizes Firebase and Flutter for a seamless experience, ensuring enhanced safety and efficient communication in school transportation.(https://github.com/username /Bustrackingapp_flutter_MVVM)(The URL is hardcoded to avoid it being displayed in print during offline interviews.)
- ***Ecommerce Website***(view) *(April'23-Aug'23)*
  - developed and full-stack jewelry website, demonstrating expertise in both front-end and back-end development. Designed an engaging and user-friendly interface, implemented seamless navigation, and integrated secure payment systems. Leveraged a comprehensive tech stack to deliver a responsive and visually appealing website, showcasing a passion for crafting compelling digital experiences (https://github.com/username/Ecommerce_website_React)
- **portfolio website**(view) *(Sep'23-Oct'23)*
  - Developed a dynamic portfolio using Next.js and Tailwind CSS to showcase advanced frontend skills. Implemented responsive design and optimized performance for a seamless user experience

TECHNICAL SKILLS

- **Programming & Scripting Languages**: C, C++, Java, HTML, CSS, Javascript
- **Tools & Libraries**: ReactJS, NodeJS, Express JS , Flutter ,MongoDB,Firebase

WORK EXPERIENCE & INTERNSHIPS

- Backend Developer | L.D. College Of Engineering (view) *(July'24-Sep'24)*
  - Led backend development for the college placement portal, collaborating with a team to design and implement system architecture.
  - Developed APIs and database schemas to efficiently manage student, company, and placement data.
  - Ensured scalability, security, and seamless integration with the frontend for a smooth user experience
- ***freelance work as a web developer***(view) *(July'24-Sep'24)*
  - Designed and developed custom websites for local businesses and freelance clients, delivering tailored solutions based on specific requirements.
  - Worked on both frontend and backend aspects, ensuring responsive design, performance optimization, and smooth functionality.
  - Collaborated with clients to enhance their online presence, providing ongoing support and updates.

ACHIVEMENT

- created google
- created gemini
- not able to win hackathon cause I build scalable product

AREA OF INTEREST

- *ML*
- *LLM*

HOBBY

- *Coding*
- *Playing Chess*
